

## OPEX PARK Inc.

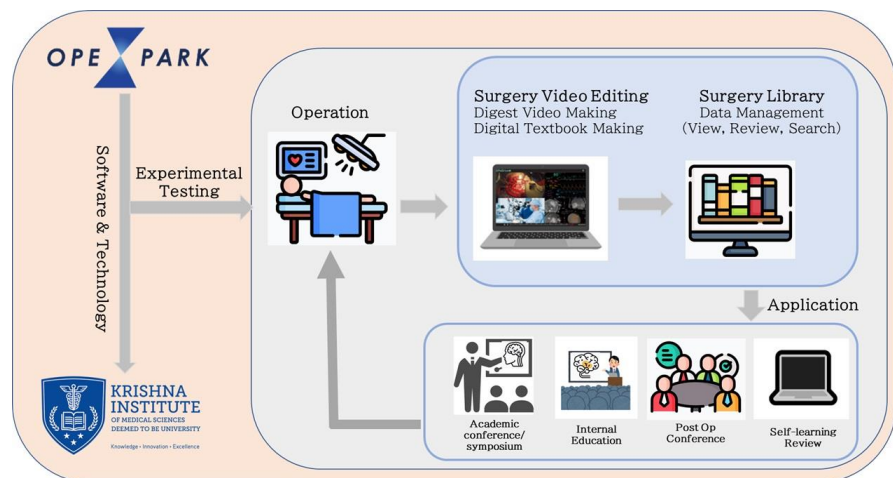

<https://www.opexpark.co.jp>

### Project Name

Demonstration of educational utilization of surgical videos in the field of medical education (India).

### Cooperation with Local Companies

In collaboration with KIMS Medical University, we aim to enhance medical education.

- Address : Shinagawa ku, Higashi Shinagawa 2-2-8, Sphere Tower Tennozu CW 2F, Tokyo, 140-0002, JAPAN
- Employees : 21
- Established in : 2019
- Production and distribution of surgical educational content for doctors

### Local Economic / Social Issues

Currently, in India, the number of physicians per 1,000 people is 0.9, which is significantly lower compared to Japan's 2.6. While the number of doctors is increasing, there is still a shortage, and there is an urgent need to enhance surgeon's education.

### Details of Demonstration

Utilizing OPeDrive VE, surgical videos are edited and provided to local surgeons as digital textbooks for educational purposes. Additionally, the edited surgical videos are organized into a library, improving the efficiency of data management.

### Expected Outcome in the future

The result of the project in the host country is expected to bring several benefits, including the enhancement of medical education and healthcare standards.
