

# SkyDrive Inc.

<https://skydrive2020.com/company>

## Project Name

Research and demonstration of high payload drone usage in the mining and agriculture sector (India)

## Cooperation with Local Companies

Our partner SRDI is a hub conducting collaborations to solve social issues. SRDI has a wide network including universities (India Institute of Technology) and startups, public institutes. We collaborate tightly to conduct all activities.

Left : Meeting with SRDI Right: PoC in Japan(Agri)

- Address : SPACES Shinagawa, Shinagawa East One Tower 7th Floor, 2-16-1, Konan, Minato-ku, Tokyo
- Employees : 195
- Established in : 2018
- Business : Development, manufacture, sales eVTOL and drone

## Local Economic / Social Issues

During our field visit in Feb, we found a highly unsafe work environment in the mining field. Also, found an uncomplete value chain caused food loss in the hilly regions.

## Details of Demonstration

- Use case exploration: to crystallize the use case of drones
- Preparation for the flight: Research for the localization
- Demonstration & capacity building (in Japan)

## Expected Outcome in the future

The high payload drone provides a safe and efficient work environment for workers. Also, expected to create new industries and jobs, especially for younger generations.
