Project Name

•PoC on Stroke Medical Collaboration Network Utilizing Communication App for Medical Professionals towards Improved Stroke Care in Uruguay

Cooperation with Local Companies

•A stroke medical collaboration network will be built in collaboration with Hospital de Clinicas Dr. Manuel Quitela, a university hospital in Uruguay

Local Economic / Social Issues

• Economical and social loss due to stroke is enormous in Uruguay. The Ministry of Public Health has set stroke care as a top priority and developed the National Stroke Plan in 2020.

Details of Demonstration

• Join, a communication app for medical professionals, and JoinTriage, a triage app for EMS providers will be introduced to 5 hospitals and 1 public ambulance service in Montevideo, to demonstrate its usefulness in realizing improved stroke care through stroke regional network.

Expected Outcome in the future

• Reduced mortality rate and disability due to stroke, reduced number of hospitalization days and medical expenditure, reduced burden of doctors
